Re: Request to Intervene in Any and All Proceedings on Docket # 2009-489-E South  
Carolina Electric & Gas Application for Increase in Rates and Charges

Dear Sir or Madam:

As a customer of SCE&G, the Company, I hereby petition the Public Service Commission to grant my request to be an intervenor for the above established Docket # 2009-489-E in any and all hearings and proceedings before the Public Service Commission.

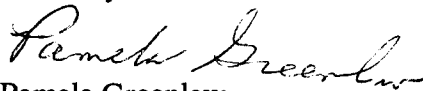

Although SCE&G is fully within its rights to request an increase in rates to cover necessary expenses dictated by regulations; however, the Company asks for too great a percentage in its increase. Furthermore, it has chosen poor timing and a poor plan for implementation of any increase in its pursuit of recovery of costs. As a customer of the Company, I implore the Commission to examine all financial records of the Company to discover a way that these costs can be recovered without asking so much of its customers at this time of severe economic hardship for most of its customers.

Everyone has taken a "hit" in the current economy. The South Carolina State Legislature is cutting so severely that many of its departments will be unable to fulfill their functions. Schools do not need larger electric bills. Industry and municipalities are in the same boat. Private citizens cannot bear increased bills at this time or in the near future. Please consider delaying these proceeding until such time as the economy can sustain increases, especially since ratepayers are by law already expected to manage the regular rate increases resulting from the 37% estimated increases for the new nuclear power plants in Jenkinsville.

The proceedings for this Docket, #2009-489-E, can be delayed without undue pressure on the Company until the economy improves. SCE&G needs to rearrange its budgeting priorities as everyone else has been doing in order to make this happen, Until the Company makes the necessary adjustments in its budget, the Commission should not entertain this request by SCE&G

Because the nature of my intervention will be based not upon making a presentation but upon cross-examination, I cannot predict at this time the length of time I will need during the hearing.

Sincerely,

  
Pamela Greenlaw
